BARN DOORS

Popular for their strong design appeal and functional performance, sliding barn doors are a great way to enhance the look of your home and take much less space to open than traditional doors. Ideal for dividing large areas or putting an attractive façade on smaller areas such as a pantry or laundry room, barn doors can complement almost every design style.

From contemporary to traditional, we've got you covered with a wide range of on-trend door options to fit your needs.

Single-sided door thickness	Double-sided door thickness
3/4"	1 1/2"
7/8"	1 3/4"
1"	
Maximum door size is 42" wide by 90" high	

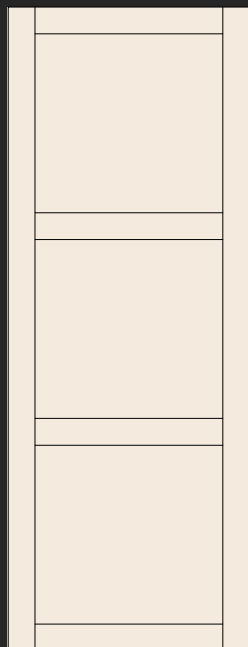

- Available in raw MDF, primed ready for paint, or fully finished in one of our standard topcoat colours
- Some styles available in "Left and Right" pairs where 2 doors are required
- Door and mounting hardware not included
